

Trust your hearing to **SOUND GUARD™**

Non-allergenic ear plugs manufactured from
polyvinyl chloride foam

NSN# 6515-00-137-6345 two-color disposable PVC ear plugs

- NRR 29 dB (per ANSI 12.6-1984). Excellent sound attenuation at an affordable price!
- **Two-color** design ensures proper insertion depth:
 1. Roll plug until thin and tightly compressed.
 2. Insert **orange** end of rolled plug quickly into ear. For easier insertion, pull ear outward and upward.
 3. Hold plug in place with fingertip until fully expanded.
 4. Plug is inserted correctly when only the green portion of the plug is visible. If **orange** is visible, reinsert the plug.
- Expands to the size and shape of the ear canal for a comfortable and effective fit.
- Water-resistant material reduces absorption of contaminants.
- Meets ANSI S12.6-1984, NRR29dB and ANSI S12.6-1997 NRR (SF) 19.1 dB.
- Meets government specification CID #A-A-54878a.
- Complies with OSHA regulations.
- 200 pair of individually boxed ear plugs per dispenser box; 10 boxes/case; 15 cases/skid.

Weight per case: 18.54 lbs.

Case dimensions: L 32" x W 19.5" x H11"
